

Screen already in use: factory reset recommended

- Press the settings button on the remote control (cogwheel icon)
- Go to **admin**
- Enter pin code (default: 000000)
- Reset to factory, **the screen will go blank ===== New screen or first start-up after reset to factory settings =====** - Select Quickstart / Normal Configuration. - Configuration of screen rotation language, input rotation activation, source: adapt if necessary (default settings can be kept as they are). - **Date and time configuration required!** - Done

DATE / TIME: It is very important to correctly configure at least the correct date, otherwise the first connection to zebrix in HTTPS will be impossible (certificate verification requires a correct date)
