2025/12/08 12:44 1/2 Compatibility

## Screen already in use: factory reset recommended

- Press the settings button on the remote control (cogwheel icon)
- Go to admin
- Enter pin code (default: 000000)
- Reset to factory, the screen will go blank

## New screen or first start-up after reset to factory settings

- Select Quickstart / Normal Configuration.
- Configuration of screen rotation language, input rotation activation, source: adapt if necessary (default settings can be kept as they are).
- Date and time configuration required!
- Done

**DATE / TIME: It is very important to correctly configure at least the correct date**, otherwise the first connection to zebrix in HTTPS will be impossible (certificate verification requires a correct date)

## Configuring zebrix on the screen

- Start the screen with the **power** button on the remote control
- Press the **parameters** button on the remote control (cogwheel icon)
- In the **EZ Setting** category, go to SI Server Setting
- Select SI Server Setting.
- Set Fully Qualified domain name to ON.
- Enter the URL: https://screen.zebrix.net
- Application Launch mode: Local
- Application Type: ZIP
- Local application Upgrade: press Remote and confirm, this will launch the application download. Exit using the cross at top right Turn off the screen using the power button on the remote control Turn the screen back on using the same button and wait. A few seconds after restarting, a notification will be displayed confirming that the application has been downloaded/updated. A few seconds later, the application starts automatically and the zebrix activation page appears. After activation by the zebrix team, we recommend that you reboot the screen with the remote control one last time before using it.
