

How do I display a Google calendar on a zebrix screen?

There are two ways to integrate a Google calendar on a zebrix screen.

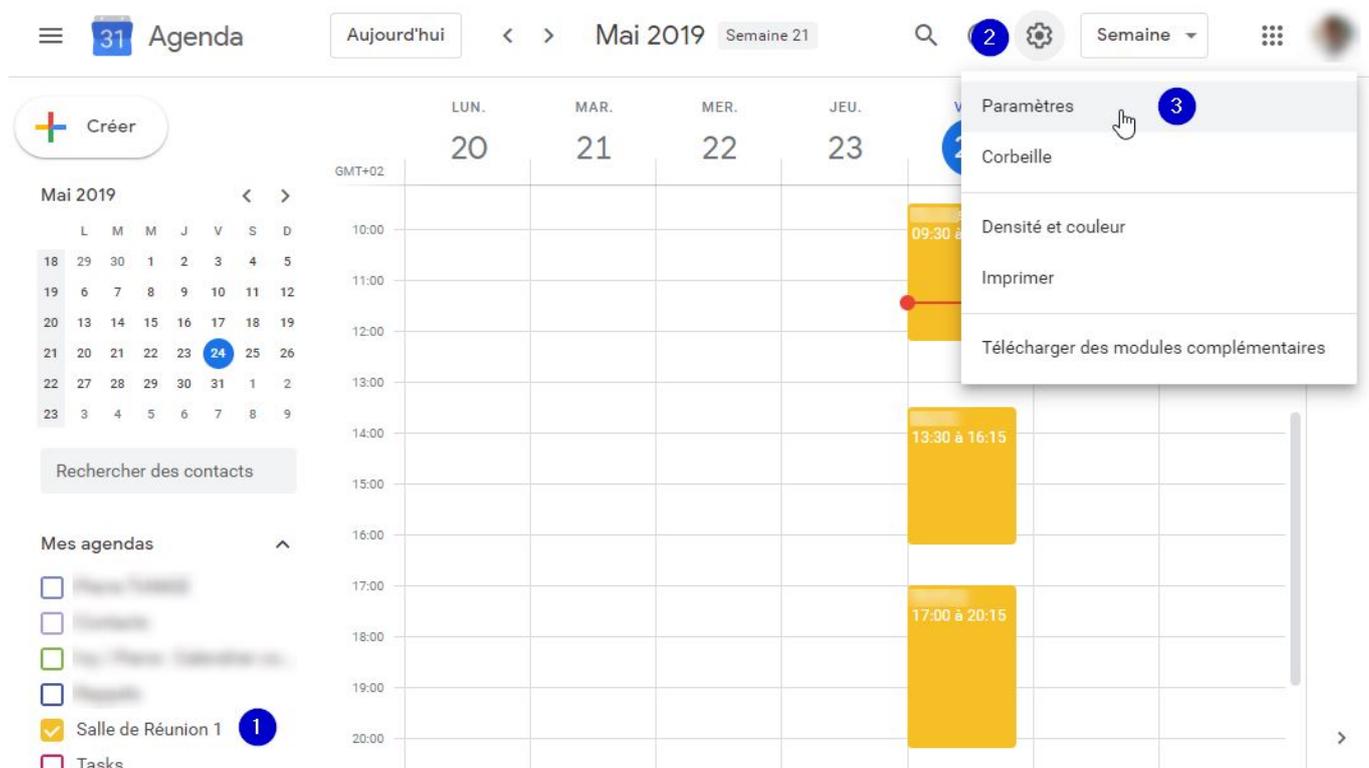

- The first method is to use the zebrix Google Calendar widget. To do this, you will need to obtain the **ID** of your calendar.
- The second method is to use the published version of the calendar offered by Google, you will need to obtain **its public access link**.

All Google calendars have a public access link. This does not mean that it is accessible to everyone though, in fact, only people who know about this secret link will be able to access it. Also note that it will not be possible to edit your calendar (it is only shared for viewing).

Here's how to get your calendar's ID and public URL:

Open your Google calendar and go to **Settings**

In the menu on the left in **“My calendars”** select the calendar concerned. In **Integrate Calendar** you will be able to obtain the public URL or ID

Salle de Réunion 1

Intégrer l'agenda 1

Intégrer l'agenda

ID de l'agenda
[redacted]8v0avqchii8@group.calendar.google.com

2 URL publique de cet agenda
`https://calendar.google.com/calendar/embed?src=[redacted]v0avqchii8%40group.cal`

Cette URL permet d'accéder à cet agenda dans un navigateur Web.

Code d'intégration
`<iframe src="https://calendar.google.com/calendar/embed?src=[redacted]0avqchii8`

Ce code permet d'intégrer cet agenda dans une page Web.
Vous pouvez personnaliser le code ou intégrer plusieurs agendas.

Personnaliser

Adresse publique au format iCal
`https://calendar.google.com/calendar/ical/[redacted]8v0avqchii8%40group.calendar.g`

Cette adresse permet d'accéder à cet agenda à partir d'autres applications.

Method 1: using the widget

- Go to the widget catalogue and select the "Google Calendar" widget, which you can find at this address: <https://widgets.zebrix.net/>

1 - Choisissez votre widget :

Google Météo Facebook Compteur

2

2 - Prévisualisez et configurez votre widget :

Prix : Free **3**

Description : Ce widget permet d'afficher vos rendez-vous ou événements de votre agenda Google

13:30	Martin
16:15	
17:00	Mathias
20:15	

- Paste the calendar ID into the appropriate field
- Customise the colours and other settings as required - Copy the URL using the button provided.
- In zebrix, create a new page or edit an existing page
- Add a new zone, specify the zone type **"Web "**

- Size it appropriately.
- IMPORTANT** in the “Web zone property” pane, click on the “Reset” button so that the calendar

occupies the entire size of the zone

Method 2: using the version published by Google
