# Change Player Type: From Magic Info to Launch URL
Prerequisite: Remote control

## 1 - Changing sources

- Switch to an HDMI or DVI type source

## 2 - Change player type

- Click on **Menu** with the remote control
- Go to **system**.

- Search for the **Play via** feature

- Click on ok (button between the directional arrows)
- Select **"URL Laucher"**.

- Click on **Exit** with the remote control once selected.

## 3 - Launching the URL

URL check :

- Click on **Home** - Go to "URL Launcher **SETTING** ".

- Check that the URL is : http:\zebrix.screen.net (If your screen is an old model, here is the URL : http:\zebrixv2.screen.net)

- Click on **"Return"**

Launch the URL:

- And this time click on **zebrix - URL Laucher**.

- The application downloads and loads its contents.
