

Change Player Type: From Magic Info to Launch URL

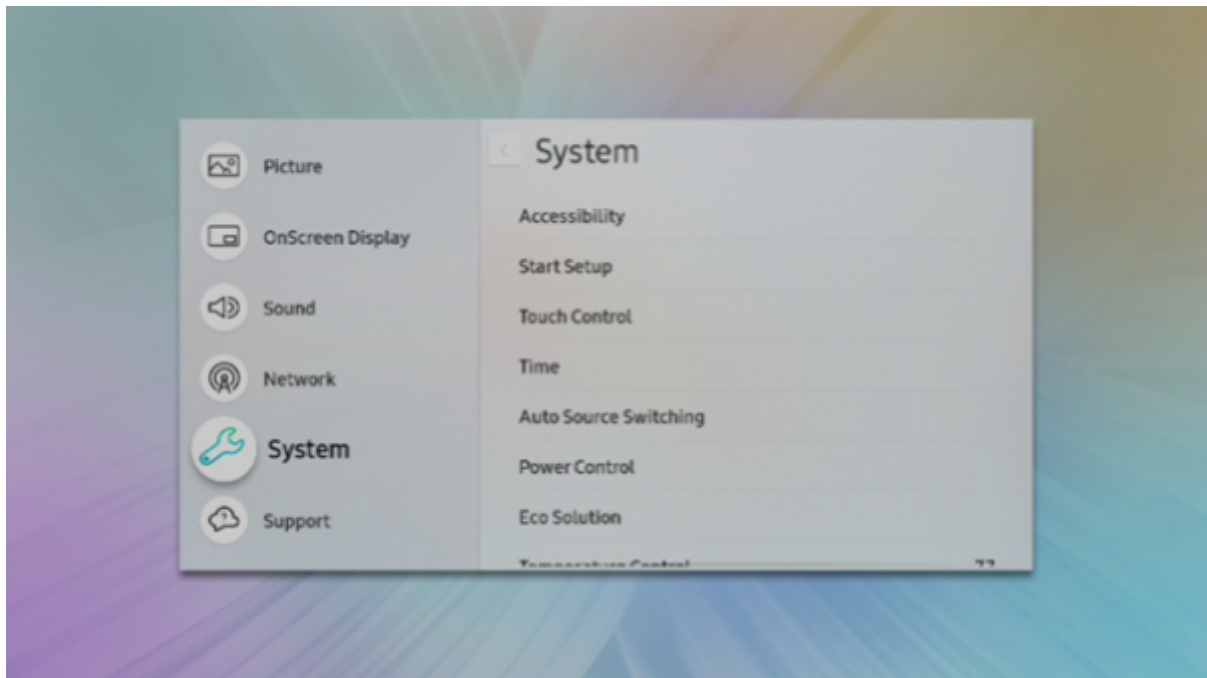

Prerequisite: Remote control

1 - Changing sources

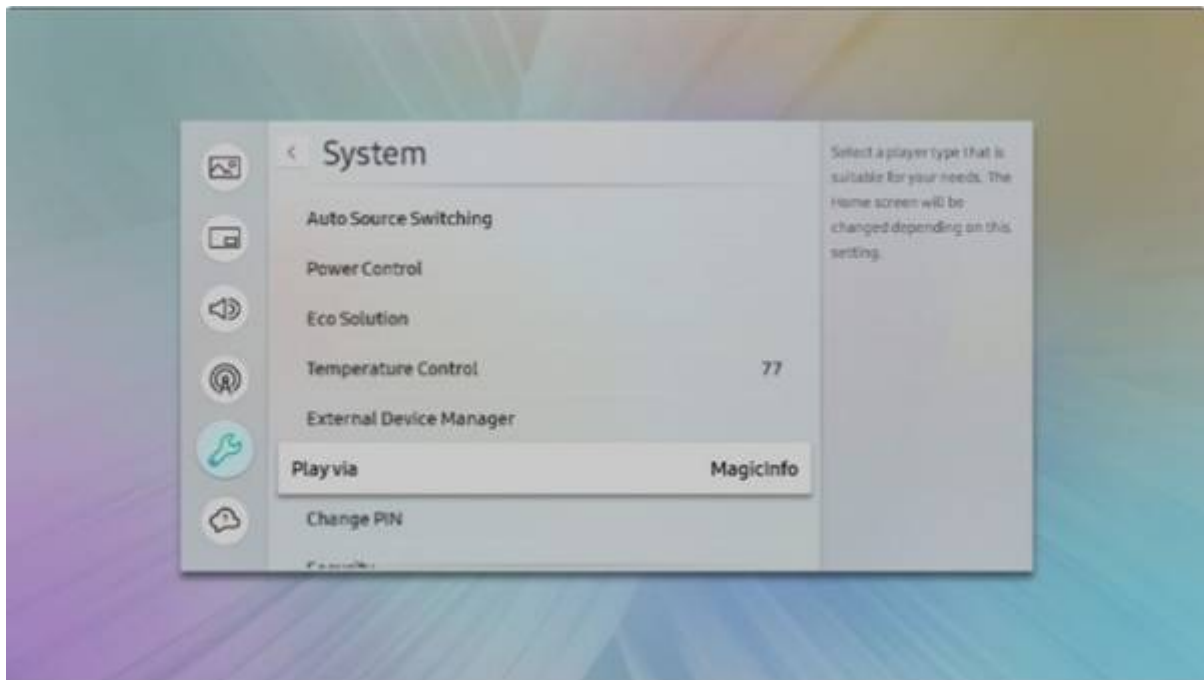

- Switch to an HDMI or DVI type source

2 - Change player type

- Click on **Menu** with the remote control
- Go to **system**.

- Search for the **Play via** feature

- Click on ok (button between the directional arrows)
- Select **“URL Launcher”**.

- Click on **Exit** with the remote control once selected.

3 - Launching the URL

URL check :

- Click on **Home** - Go to **“URL Launcher SETTING ”**.

- Check that the URL is : <http://zebrix.screen.net> (If your screen is an old model, here is the URL : <http://zebrixv2.screen.net>)

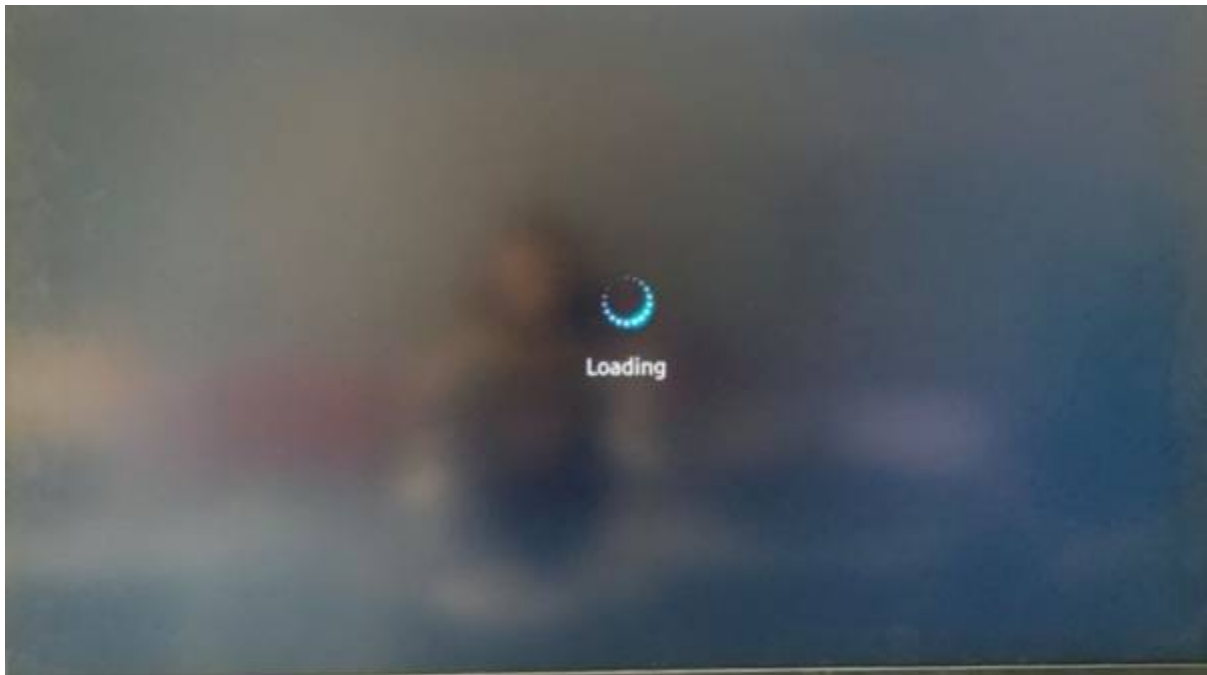

- Click on **“Return”**

Launch the URL:

- And this time click on **zebrix - URL Launcher**.

- The application downloads and loads its contents.
