

Power Bi integration in zebrix

- The user that wants to create a power bi zone on zebrix need a valid Microsoft Power Bi Pro / Premium licence. (Trial licence also ok)
- Then the user must create a power bi zone on a page on zebrix
- The user will need to authenticate and to give the permissions to zebrix to access to his power bi reports.
- Then a message will be displayed: an administrator needs to allow the application at the enterprise level. It means the zebrix connector for power bi app has been created in your M365 and just needs to be allowed by admin.
- Then M365 administrator must go to this page and click on "GRANT ADMIN CONSENT FOR YourCompany" :

https://entra.microsoft.com/#view/Microsoft_AAD_RegisteredApps/ApplicationsListBlade/quickStartType~/null/sourceType/Microsoft_AAD_IAM?Microsoft_AAD_IAM_legacyAADRedirect=true

Support + Troubleshooting
New support request

Granting tenant-wide consent may revoke permissions that have already been granted tenant-wide for that application. Permissions that users have already granted on their own behalf aren't affected. [Learn more](#)

The "Admin consent required" column shows the default value for an organization. However, user consent can be customized per permission, user, or app. This column may not reflect the value in your organization, or in orga

Configured permissions

Applications are authorized to call APIs when they are granted permissions by users/admins as part of the consent process. The list of configured permissions should include all the permissions the application needs. [Learn more about permissions and consent](#)

+ Add a permission ✓ Grant admin consent for MANGANELLI

API / Permissions name	Type	Description	Admin consent requ...	Status
Microsoft Graph (1)				...
User.Read	Delegated	Sign in and read user profile	No	Granted for MANGANELLI ...
Power BI Service (2)				...
Dataset.Read.All	Delegated	View all datasets	No	Granted for MANGANELLI ...
Report.Read.All	Delegated	Make API calls that require read permissions on all reports	No	Granted for MANGANELLI ...

To view and manage consented permissions for individual apps, as well as your tenant's consent settings, try [Enterprise applications](#).
