

SSO implementation in zebrix with Azure AD (Office 365)

Save zebrix metadata in a file

1. Surf on <https://auth.zebrix.net/metadata>
2. Right click and save the file to a file with .xml extension

In the Azure AD admin center, add a new app

Create a new app using these options and call it "zebrix" or "zebrix CMS"

zebrix overview

Azure Active Directory admin center

Dashboard > Enterprise applications > zebrix | Overview

Enterprise Application

Properties

Name: zebrix

Application ID: [redacted]

Object ID: [redacted]

Getting Started

- 1. Assign users and groups**
Provide specific users and groups access to the applications
[Assign users and groups](#)
- 2. Set up single sign on**
Enable users to sign into their application using their Azure AD credentials
[Get started](#)

Choose which groups/users will be allowed to login

Azure Active Directory admin center

Dashboard > Enterprise applications > zebrix

zebrix | Users and groups

Enterprise Application

+ Add user/group Edit Remove Update Credentials Columns

The application will appear on the Access Panel for assigned users. Set 'visible to users?' to no

First 100 shown, to search all users & groups, enter a display name.

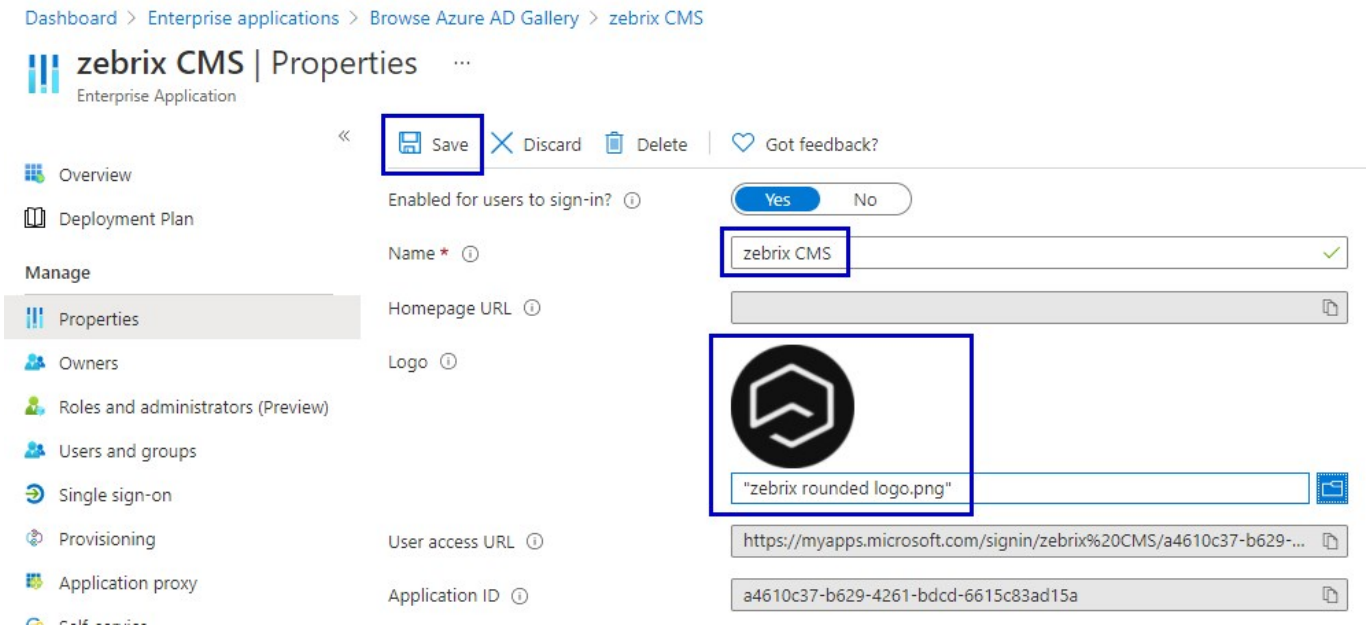

| Display Name | Object Type |
|----------------------------------|-------------|
| No application assignments found | |

In the "Properties" section, set the zebrix logo

Save the following logo file

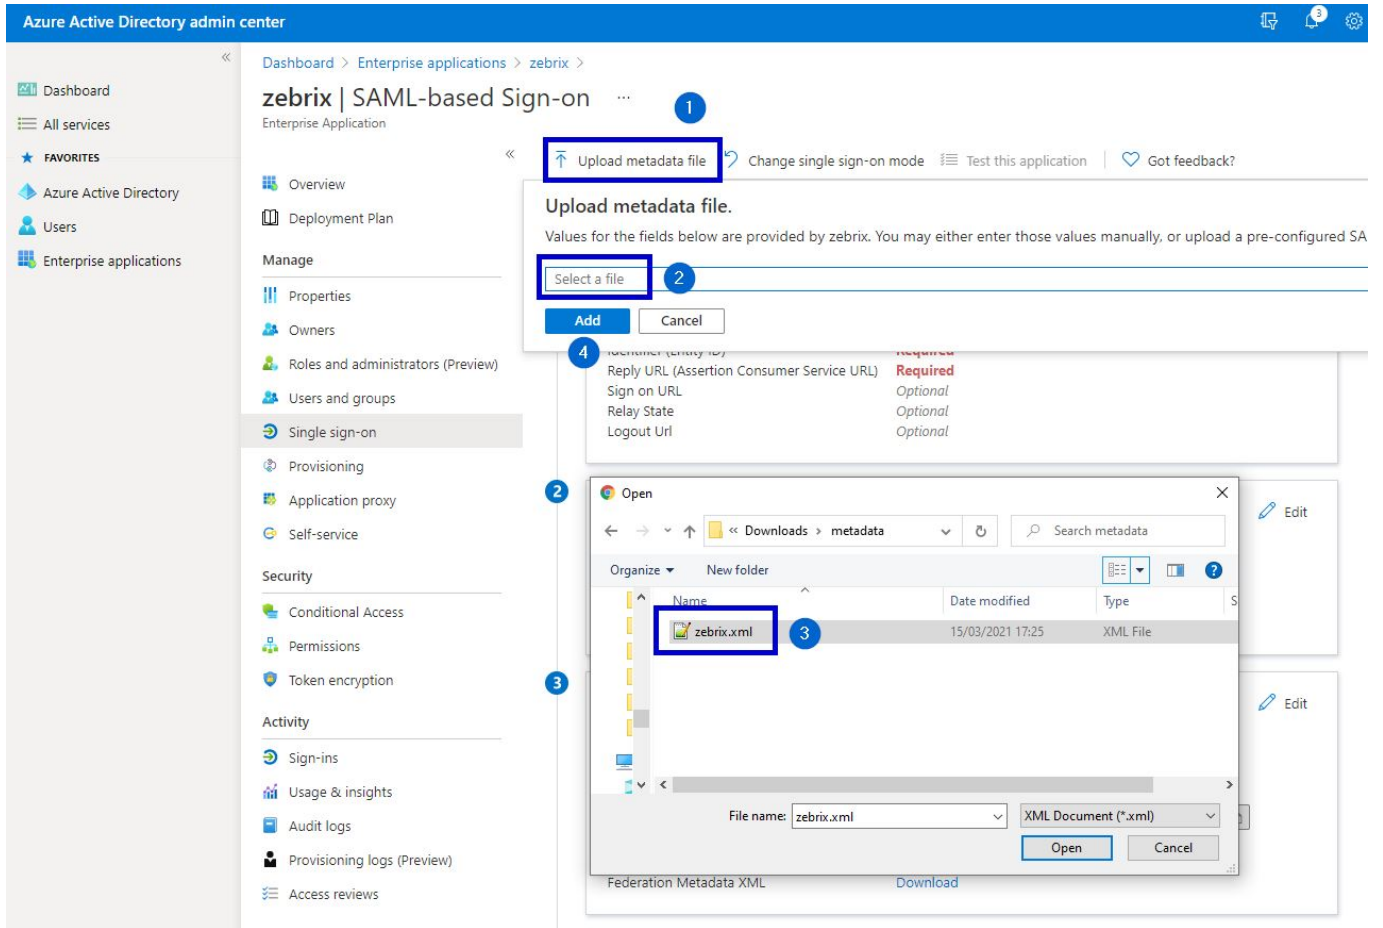

and upload it in the configuration

In the "Single Sign-on" section, configure the SSO: choose SAML

Upload previously downloaded file to portal

Add a "Sign On URL" and save the basic SAML configuration

Some fields will be prefilled thanks to the imported .XML file, but the "Sign On URL" needs to be filled manually. Please specify the following URL: <https://cms.zebrix.net/cn/customername> (please replace **customername** with your actual customer name on zebrix)

Basic SAML Configuration

 Save

Identifier (Entity ID) * ⓘ

The default identifier will be the audience of the SAML response for IDP-initiated SSO

Default

ⓘ 

Reply URL (Assertion Consumer Service URL) * ⓘ

The default reply URL will be the destination in the SAML response for IDP-initiated SSO

Default

ⓘ 

Sign on URL ⓘ

Please adjust to your zebrix customer name

Relay State ⓘ

Logout Url ⓘ

Skip SSO login test

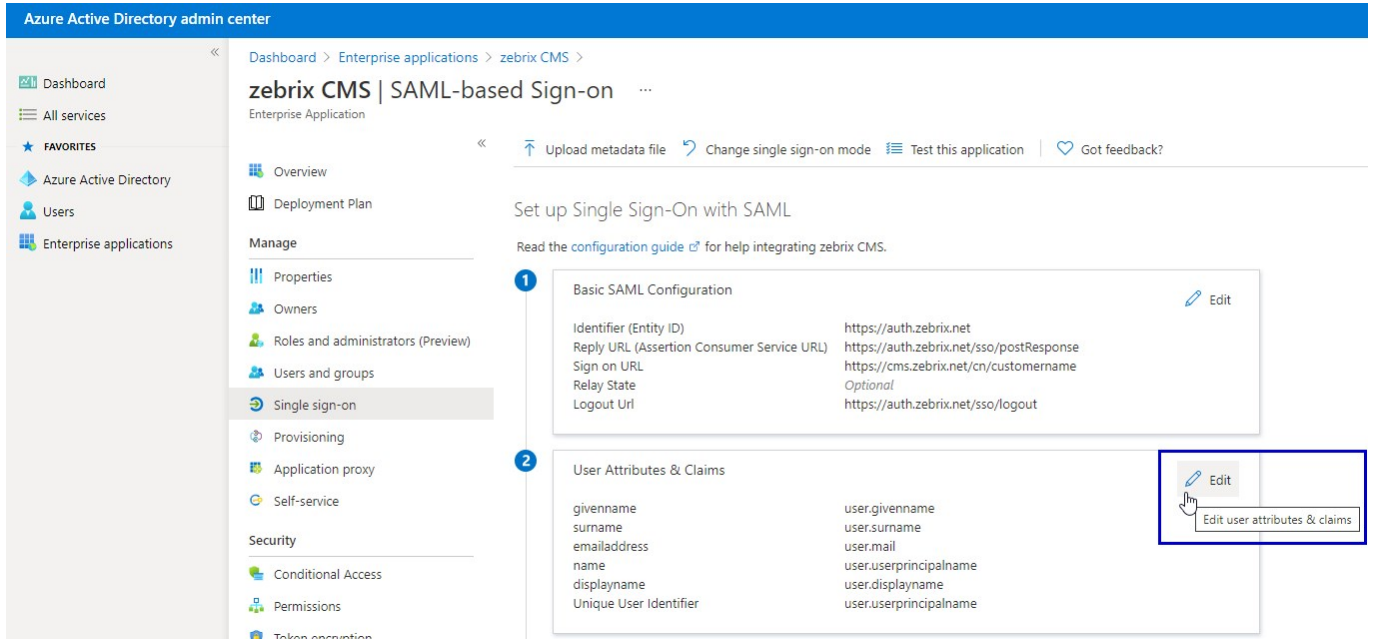

Test single sign-on with zebrix

To ensure that single sign-on works for your application, to test now?

Identifier (Entity ID)

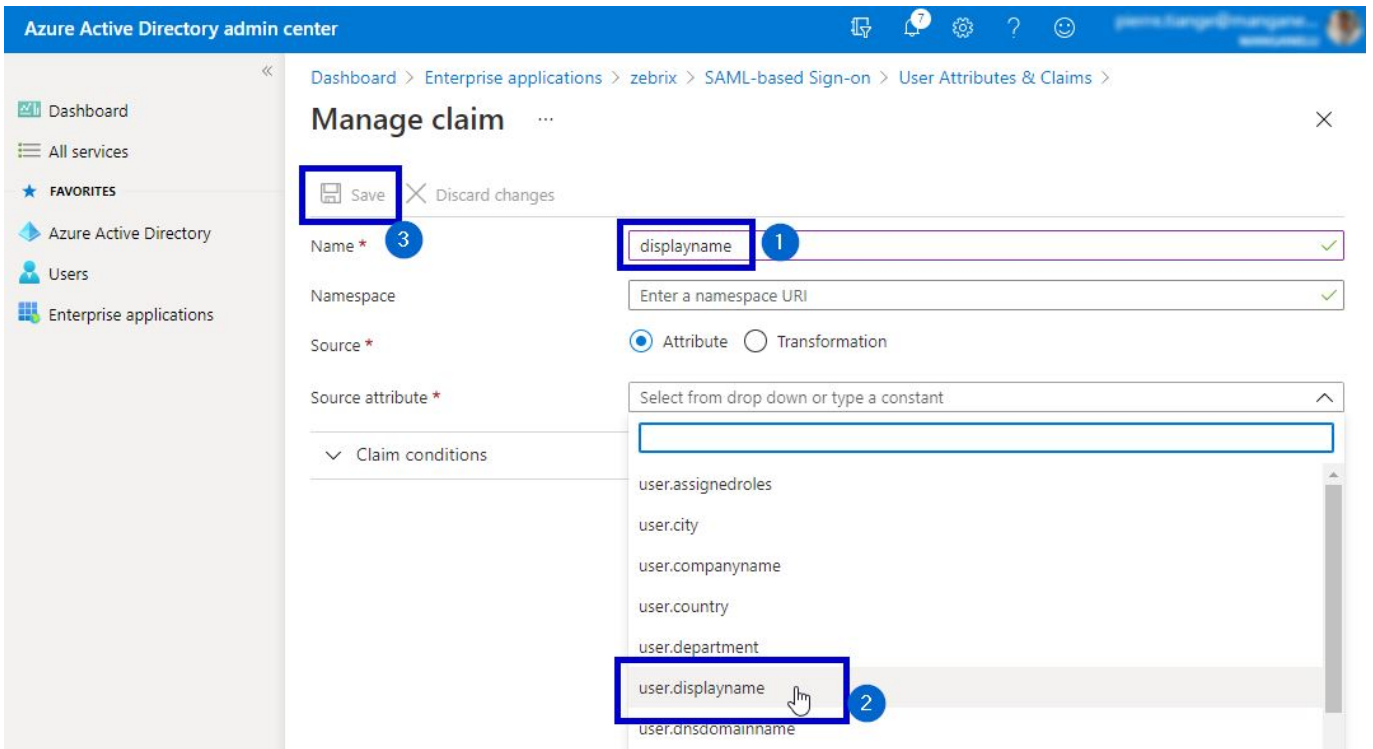

htt

Edit User attributes and claims

Add a new claim

1. Use **displayname** as name
2. In the name space field please copy / paste the following namespace <http://schemas.xmlsoap.org/ws/2005/05/identity/claims>
3. In the dropdown list, select the value **user.displayname**
4. Press the **Save** button

Copy the "App Federation Metadata URL" and send it to support@zebrix.net

Our Technical team will implement your settings on zebrix side and activate to SSO on your account
